## MERN STACK ENGINEER

Lagos, Nigeria

+2347039901318

[Mail](#) | [Portfolio](#) | [Github](#) | [Twitter](#) | [Linkedin](#)

## PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with expertise in front-end and back-end technologies. Proficient in contemporary JavaScript libraries and frameworks such as React and Node.js. Skilled in database management and RESTful API development. Strong problem-solving skills and a keen eye for detail. Collaborative team player experienced in delivering scalable web applications. I specialise in cooperating with cross-functional teams to execute projects on time and within budget, with a strong emphasis on performance, accessibility, and security. My enthusiasm for creative problem-solving and lifelong learning enables me to stay current on the newest technology and trends while adapting to new problems and delivering great results.

## EXPERIENCE

### **Tech Leaders, Delaware, US** - *Fullstack developer*

JUNE 2023 - PRESENT

- Overseeing and guiding the analysing, writing, building, and deployment of software
- Overseeing the automated testing and providing feedback to management during the development process
- Modifying and testing changes to previously developed programs

### **Nupat Technologies , Lagos, Nigeria** - *Fontend engineer*

Sept 2021 - present

- Worked as a lead Facilitator and Front-end developer, building and maintaining web applications using HTML, CSS, JavaScript, React, React Native, Node.js, and MySQL.
- Collaborate with cross-functional teams to develop and implement new features and functionality.
- Ensure web applications are optimised for speed and scalability.

### **AffilBase, Lekki, Nigeria** - *Frontend Engineer Mobile (React Native)*

2022 - Present

- Transition existing React web apps to React Native.
- Build pixel-perfect, buttery-smooth UIs across both mobile platforms.
- Leverage native APIs for deep integrations with both platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.

## PROJECTS

**NUPAT Website:** (<https://www.nupat.com.ng>) – Built a responsive website for NUPAT Technologies, this website is the major source of cohorts for the code camp and it earns the code camp an average reach of 1,000 monthly applicants

**LASMAB Landing Page:** (<https://lasmab-landing-page.vercel.app/>) – Created a high user-friendly landing page for The Lagos State Anglican Schools Management Board that enables parents to begin their wards school application directly from the website with option to select preferred school of choice.

**LASMAB parent dashboard application:** <https://lasmab-parensst.netlify.app/> – This is the Parent Dashboard that I built with a team of two developers, this application is built for Lagos Anglican school parents to manage their wards, resume application, view their ward performances

**Affilbase merchant application:** <https://merchants.affilbase.com/> – This project is a web app that was built by a team of Developers at Affilbase including me, It is a software that helps the company manage agents that promote products through marketing strategies, it also brings campaign managers and the agents in sole space to get the best of the agents

**Trivia-q:** (<https://trivia-q-nu.vercel.app/>) This is a trivia question app built by a team of 3 developers including me. It simulates WWTBAM program for secondary schools so as to prepare them for Joint Admission and Matriculations Board (JAMB) exams

## Education

- Bachelor's of Social Work, **University of Unilorin**      **2015-2019**
- Diploma in front end development, **Nupat Technologies**      **2021**
